## Professional Summary

Vancouver Island University graduate in Bachelor of Science in Computer Science and Mathematics with two years of professional experience building immersive training simulations, editor tools, web applications, and real-time interactive systems. Experienced working with artists, testers, developers, and stakeholders in agile production environments. Passionate about software infrastructure, education, academia, and helping younger generations grow.

## Education

**Vancouver Island University** **Jan 2014 - May 2022**
Bachelor of Science, Double Major in Computer Science and Mathematics
Fundamentals of Engineering Certificate
Proficiency in Language and Culture Certificate, Japanese Concentration

## Professional Experience

**ML56** **Aug 2022 - Jun 2024**
*VR Developer* Remote, ON

- Developed Unity-based VR training simulations within a 100-person company, working in multidisciplinary teams of developers, artists, testers, and stakeholders.
- Built gameplay systems, front-end interfaces, web applications, databases, and in-editor tools supporting immersive training products.
- Developed systems for a VR manhole training simulator using recursive JSON scene generation and network-delivered level data.
- Prototyped AI-assisted scene tooling using Unity, Unreal Engine, OpenAI, AWS, Docker, Kubernetes, and Python.
- Created procedural spline-generation tools for placing powerlines, pipes, hoses, cables, and connected scene elements.
- QA-tested and delivered a private-contract VR training product for a major Canadian retailer, verifying distribution-centre workflows and multilingual training support.
- Collaborated with artists to integrate assets, resolve implementation issues, and prepare investor presentations and internal demonstrations.
- Participated in daily standups, sprint planning, weekly code reviews, technical documentation, bug verification, and product validation.

**Vancouver Island University** **Sep 2018 - Apr 2019 / Sep 2026 - Oct 2026**
*Computing Tutor, IT Department CUPE Casual* Nanaimo, BC

- Tutored students in programming, web development, data structures, algorithms, databases, graphics, operating systems, networking, multithreading, and compiler development.
- Assisted students with calculus, linear algebra, discrete mathematics, and technical problem solving.
- Conducted campus-wide inventory audits, consolidation, and asset tracking.
- Resolved faculty technology issues and managed institutional ticketing systems.

**Society of Organized Services** **Nov 2025 - Present**
*Math Tutor* Parksville, BC

- Tutored high-school students in mathematics, including algebra, trigonometry, factoring, and problem-solving strategies.
- Support students in building confidence with structured practice, worked examples, and clear explanations.

**Max's Mushrooms** **Aug 2012 - Aug 2022**
*Logistics Assistant* Vancouver Island, BC

- Loaded and organized pallets for regional deliveries; supported inventory handling, invoicing, e-commerce fulfillment, and domestic and international freight documentation.

**French Creek Marine Pub** **May 2013 - Aug 2022**
*Prep Cook* French Creek, BC

- Prepared banquet operations, maintained kitchen organization, and contributed to daily food-service.

## Technical Skills

**Mathematics:** Linear algebra, discrete mathematics, graph theory, calculus, statistics, computation theory.
**Graphics and Rendering:** Unity, Unreal Engine, UI development, QA testing, editor tooling, VR systems, OpenGL, shader programming, procedural tools, Blender, GIMP, Godot.
**Programming and Web:** C++, C, Python, JavaScript, SQL, HTML, CSS, Bash, PHP.
**Cloud Tools:** AWS, Docker, Kubernetes, Git, GitHub, Perforce, Jira, Confluence, Slack, Microsoft Teams, Odoo.
